Supervisors Vote to Take Action In Easing Transportation Setup

Seeking a solution to the ever-increasing problem of transportation in San Mateo County, the board of supervisors yesterday voted to take part in two programs aimed at relieving the situation.

The board named three of its members to a Bay Area Transportation Committee proposed by the San Francisco Board of Supervisors.

It also designated County Engineer M. A. Grant, an ex-officio member of the board, as its representative at a meeting in San Mateo aimed at pushing a southern bay crossing.

The members named to the Bay Area committee are Supervisors Thomas L. Hickey, Martin Poss and Henry W. Edmonds. They were nominated by Supervisor Edward R. McDonald.

They were appointed after the board was notified by the San Francisco supervisors that the latter had proposed the establishment of the committee to study the unification of the Bay Area transportation system and suggested a rapid transit system as the solution to the transportation problem.

Supervisors from each of the Bay Area counties, and mayors from various cities are to comprise the committee. No date has been set for a meeting.

"I think we ought to show them a little more consideration than they showed us," Hickey said in registering his stamp of approval. Hickey at various times has attacked the San Francisco supervisors, claiming that they snubbed him when he attempted to lay before them San Mateo County's Bay bridge proposals.

Notice of the San Mateo meeting was given to the supervisors by the San Mateo Chamber of Commerce. All Peninsula service clubs have been invited to the meeting, which is to open at 8 p.m. on Monday Jan. 19, in the San Mateo City Hall.

The proposal is for the various civic organizations to throw their support to a southern bay crossing which would serve all of the residents of the Bay Area, rather than just a small segment.

The supervisors yesterday also:

Postponed until a new health director is appointed a proposal by the San Francisco Society for the Prevention of Cruelty to Animals that it establish an animal shelter in San Mateo County. The SPCA would bear the cost of setting up the shelter, but the county would be expected to pay the cost of future maintenance. The proposal was made as a result of the reportedly critical rabies situation in the north end of the county.

Awarded to the Bank of America the contract for the sale of $1,500,000 worth of bonds of the South San Francisco Unified School Dist. The bid was 2¾ per cent for the first $225,000, and 3 per cent for the remainder.

Awarded to Weeden & Co. of San Francisco the $60,000 bonds of the Greersburg Elementary School Dist. The bid was 2½ per cent, with a $66 premium.

Designated the Burlingame Advance as the official paper of the county for 1948.

Cite RC Woman in P.A. After Auto Accident

Marie K. Rosencrans, 42, 115 Birch St., was cited after an accident this week by Palo Alto police. Her automobile and a car driven by Mrs. Beatrice Stephenson Jones, 67, Mountain View, were involved in a two-car collision in the Palo Alto underpass.

Police charged that Miss Rosencrans' car followed another vehicle too closely.

Thompson Retires As Exchange Head

T. N. Thompson, retiring president of the Redwood City Exchange Club, last night conducted his final meeting prior to installation of 1948 officers Saturday night. The club heard reports by Secy. Leo Fuller, Treas. James P. Hearne, the auditing committee and Thompson.

The club voted $10 with which to purchase canned milk for the hungry children of Europe. John Ryan presented the project on behalf of the Junior Chamber of Commerce, which has undertaken the campaign in Redwood City at the request of Gov. Earl Warren.

Tribune Photo

IN WITH THE NEW — Thom Rhorabaugh (left) turns the gavel over to Fred Schmitz as the latter took over today as president of the Redwood City Kiwanis Club. Rhorabaugh is the outgoing chieftain. Schmitz, a longtime resident of Redwood City, is operator of Brand Plumbing Co.

Suit for Damages In SM Accident

A suit asking for $2715 damages was filed in superior court today as a result of injuries sustained by Peter M. Dinkelspiel, 16-year-old son of a Hillsborough attorney.

The youth was injured on Oct. 27 in an automobile collision on Canyon Dr., San Mateo. The suit, filed by his father, Martin J. Dinkelspiel, names as defendant John S. Frykland, driver of the car with which young Dinkelspiels' automobile collided.

Fred Schmitz New Kiwanis President

Fred A. Schmitz was installed as president of the Redwood City Kiwanis Club during ceremonies held today at the Three Owls.

Schmitz, who last year served as vice president, replaces Thom A. Rhorabaugh as president of the group. Albert H. Sagehorn was installed as secretary-treasurer for a seventh term.

Five new members were added to the club's board of directors. They include Thom Rhorabaugh, John A. Ball, Cuthbert B. Currie, Ralph S. Dodge and Gerald E. Towne.

John H. Beyerstedt, Myron Harman, Howell Miller Jr. and Andrew Spinas of the 1947 board of directors will serve again on the new board.

Retiring board members are James Thomas, Murray Davenport, Hallet C. Clifford and Walter M. Martin.

Oft-Married Stacy Kin Succumbs

A man who remarried the second of his six wives last Jan. 29 after 28 years of divorce and 52 years after their first ceremony is dead.

The man was William Sheridan Reed, grandfather of Mrs. Lew Stacy of Redwood City.

Life's end found Mr. Reed alone.

Mrs. Edna Florence Reed, who started out with him again at 71 last year when she came up from Stockton to Sacramento on a visit, was not there.

"Edna?, she left," he told friends recently. "We just didn't get along."

Last year's ceremony, at which both the bride and groom used canes, was watched by the couple's three children, six grandchildren and two great grandchildren.

The snowy-tressed bride, wearing a red rose corsage, was attended by a daughter, Mrs. Goldie Ferriera, Coloma, and a granddaughter, Mrs. Lew Stacy, Redwood City. She was given away by a son-in-law, Angelo Ferriera, Coloma, and James Wesley Reed, Canlonville, Ore., stood up with his father in the home service.

The other daughter, Mrs. Irma Connelly, Coloma, recorded their words on a portable phonograph and two teen-aged grandsons, Chessley and Beryle Ferriera played Wagner's wedding music on their string instruments "after only 15 minutes to practice."

"Why shouldn't we be happy," smiled the groom after the knot was refixed. "She's been off on a vacation for 28 years and now she's come back."

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
for Coughs, Chest Colds, Bronchitis

Setup Dog Clinic In Rabies Battle

The San Mateo County Health Dept., fearing the spread of rabies from Brisbane to other north county communities, announced that a two-day animal clinic would be held in Bayshore City.

The clinic will run from 9 a.m. to 6 p.m. on Jan. 23 and 24 in the Midway Village office. It will be free.

Dr. Harold Marks, acting health director, announced the establishment of the clinic, the second of its kind since the animal quarantine was put into effect in the county. In the Brisbane clinic, hundreds of animals were examined and vaccinated against the disease.

The clinic will be operated by Dr. John T. Morris, a San Bruno veterinarian.

Air Bond Issue In Broadcast

The Belmont Recreation Center's proposed bond issue of $99,000 will be the topic of discussion Saturday morning over KSMO, at 10:30 a.m.

The program, presented by the Peninsula Life Forum, will feature three authorities according to James Ross, publicity chairman of the Belmont Civic Assn.

Chairman of the program will be James Healy, chairman of the recreation commission and park commissioner.

SC MAN PROMOTED

Douglas Duncan, 1315 San Carlos Ave., San Carlos, formerly assistant cashier, was one of eight Anglo-California National Bank officers promoted to assistant vice president, according to an announcement made today by Allard A. Calkins, president.

Street Light Request Again Is Tabled

Alvaro Passaro, 2751 Brewster Ave., was told to wait a little longer again this week. It wasn't a new thing for him to hear.

In 1939 Passaro constructed his home near the corner of Brewster Ave. and the Alameda de las Pulgas. Since then he's been seeing councilmen in an attempt to have a street light installed there.

Now that his children are growing older, he explained, a street light became more desirable than ever. He had wondered whether he should come back to council in 1949 and make his battle an even decade old, but abandoned that idea and appeared last night, he said.

Councilmen still couldn't promise any aid . . . but they put the matter on their agenda where it has rested on and off for a long, long time.

GARDEN: Reader Suggests BHC for Sodweb Worms

BY ROLLY LANGLEY

William E. Cahill, a gentleman busied with insecticides, commercially, writes: "The other day I noted in your column that a Mrs. F. A. Cline asked for a control of sodweb worms in her newly planted lawn and was recommended arsenate of lead." Mr. Cahill goes on to say that he thinks a material reported previously in this column, BHC (Benzene Hexachloride), is much better, not only from a standpoint of effectiveness, but also in residual effect, cost, and safety.

I haven't as yet tried it for sodweb worms, but pass the information on. Certainly it's cheap enough. A pound of the 6 per cent isomer of Benzene Hexachloride, costing $1.50, mixes in 25 gallons of water, and covers 2500 square feet.

This same concentration can be used to good advantage against wireworms. Spray it on the ground, and then hoe it in. This can be done as the seed bed is being worked up, just before planting. It's safe for all vegetable crops. And it's also effective, sprayed on leaves—against aphids.

"I haven't bought a tomato in over three years," writes Clarissa M. Roehr. I did, not long ago . . . six for 49 cents, in a nice box with cellophane window. A swell package, but the tomatoes were practically tasteless. More like red colored paper pulp, although maybe not so juicy as the pulp.

Personally, I don't think the British have anything on California greenthumbers. True they raise wonderful sweetpeas, but that's because they get their seeds from California growers, and their climate is conducive to sweetpea culture.

So when a subscription manager of a British magazine writes me, he can only make a sale if he takes the right approach—that the magazine covers the problems of England, and doesn't pretend to be omniscient. . . .

Such was the case with C. Bradley, of "Gardening, Illustrated," so he's getting my check for a year's subscription—$1.50. If you'd like a looksee too, send your check to "Gardening Illustrated, Subscription Department, Tower House, Southampton Street, Strand, London, W. C. 2, England.

Now maybe I shouldn't have given you that. Perhaps it would have been smarter to wait until my first copy arrives, and then spring stuff from it on you as though I were omniscient. (But then when would I get a day off from a trip to the snow, much less to The B. I.'s.

G. W. Morrow of Hayward thinks winter radishes have better flavor than those grown in Spring and Summer. It will cost you five cents for a packet of seeds to check up on his theory. Plant them sparsely, so they won't crowd, fail to develop good roots. When crowded they start "travelling" on top of the ground.

It's scarcely noticeable, unless you have some routine which is effected by daylight, but the days are getting longer. Before long the flowering fruits will start to blossom, and Spring will be here. Do you have all the new fruit trees, and deciduous ornamentals planted which you've planned for this Winter? Soon it will be too late, for they'll start to leaf out.

During January, tuberous begonia seed can be planted. Start them in flats of well screened potting mixture. It's safest to cover the flat with a pane of glass, even though you have the flat indoors. This keeps the temperature more uniform, and should prevent too quick drying out of the soil mixture.

You can also start seeds of tomatoes, peppers and eggplants this month, although you can easily wait until February. We proved last year, with the Pearl Harbor tomato seeds, that late plantings can be successful. However, the Pearl Harbors would have been MORE successful, if you could have had the seed earlier.

In any garden, there should be room for a bit of parsley. Start some in a flat now. It takes up to six weeks for it to germinate sometimes. Transplant when it's no less than two inches high.

Gift Ship to Collect Milk for Needy Children

A can of milk for the hungry children of Europe.

That is the plan behind the "California Gift Ship" campaign which began in Redwood City as well as dozens of other communities throughout the state today.

The drive, which will be concluded here on Jan. 13, was conceived by Gov. Earl Warren and is being carried out by the Junior Chambers of Commerce in California. It proposes that interested folks contribute one or more cans of milk—condensed, evaporated, or powdered—to be shipped by California Maritime Academy to Italy, France, and Greece to aid the hungry children of those countries.

Chairman of the drive locally is David Schutz, president of the Redwood City Junior Chamber of Commerce. His assistants include officers and members of that organization.

Schutz pointed out that all local service clubs, fraternal groups, churches, and schools will be asked to join the drive by taking up collections of milk or cash which will be turned over to the committee.

Redwood City's quota is three tons—the total for the state is 1400 tons, according to the announcement issued by Governor Warren's office.

Local grocers will join the campaign by putting on display large cartons where donors may drop their contributions of canned milk. All cash contributions should be sent to California Gift Ship, Junior Chamber of Commerce, P.O. Box 505, Redwood City, Calif.

Schutz explained that the donations made in Redwood City would be added to those of other cities on Jan. 18, when the Gift Ship will be loaded at San Francisco. Other stops will be made at ports at Stockton, Oakland, Vallejo, Los Angeles and San Diego.

It will be necessary to package and mark each of the cans as a gift from Redwood City prior to that date, Schutz said in urging that local residents heed the Jan. 13 deadline.

Members of the junior chamber will meet on Jan. 14 to assemble the collections and package them for shipment.

All cash donations will be used for the purchase of canned milk which will be added to the other contributions here.

Both Governor Warren and Schutz asked Redwood City people to get behind the "California Good Will Milk Gift Ship to illustrate once again the generosity of California in helping the less fortunate.

The new absorption-emission pyrometer will open up new research into rocket power. This instrument measures the temperature of the exhaust gases with an accuracy of one per cent.

Equalization Board Moves RC Office

The State Board of Equalization, which has been served notice to evacuate its basement quarters at the courthouse, today announced that it has rented a suite of offices in the Holmquist Bldg. on Main St.

Preparations now are under way for the move, which is expected by Jan. 15.

THE COST OF GAS AND ELECTRICITY IN YOUR HOME HAS GONE DOWN

It takes a lot of shopping around today to find a pre-war bargain. Practically everything in the line of home necessities, for example, has climbed steadily upward in price since 1939. However, there is one exception...the cost of gas and electric service has gone down and down in price.

Year in and year out your dependable gas and electric service has helped you run your home with money-saving and labor-saving appliances at rates far below the national average. And no matter how much other items in the cost of living may go up during this New Year, you can be sure that cost of gas and electricity will remain the biggest bargain in the home.

Kin Reports East's Weather Hazards

Mrs. Toni Jo Thompson of Redwood City is happy that she lives in Redwood City where climate is best, rather than in New York City, where the climate has not been too red hot during the last few weeks.

Mrs. Thompson reports that she recently received a letter from her sister, Mrs. Joseph Sweeney of Yonkers, N. Y., who sent her pictures and a description of New York's recent record breaking snowstorm.

Newsaper pictures sent to Mrs. Thompson show cars almost completely hidden by snow and clippings report skiing activities on Madison Ave.

Mrs. Sweeney stated that in Yonkers at the height of the storm, power and telephone service was cut off and transportation was at a complete standstill.

"I wish I was in California," she stated at the end of her letter, according to Mrs. Thompson.

Redwood Village Lighting Delayed

Redwood Village residents will have to wait for street lights, Redwood City councilmen decided this week.

M. P. Traver, representing the recently annexed subdivision, had urged that the Pacific Gas and Electric Co. be instructed to install the lights immediately. He said PG&E has a contract to do the work from the city but had been asked by City Mgr. E. A. Rolison not to do the work now. Traver said he feared the scarce lights would be used elsewhere.

Mayor W. W. Hilton told Traver "You remember our telephone conversation . . . well, the situation stands the same as it did only closer . . . please, wait a little longer."

Possibly what Hilton referred to was a secret city deal aimed at selling the city's street lighting system to the utility. Both Ex-City Mgr. E. W. Blom and Fire Chief Joe Lodi recommended this sale about which nothing has been heard since. Blom claimed it would be cheaper to sell than to try to repair the lights so that they comply with state law.

Commuter Fare Hearing Opens

The state public utilities commission in San Francisco yesterday opened hearings on Southern Pacific's petition for increased Peninsula commute rates running up to 42 per cent.

L. N. Bradshaw, commission examiner, denied the Redwood City Commuters' Club request that the hearing be postponed.

Claude E. Peterson, vice president of Southern Pacific, in charge of passenger traffic, opened the railroad's case. He said the company was unable to meet increased costs of Peninsula service out of the fare increase granted by the commission in 1946.

"The service, although not profitable to us has, we think, been an important factor in the growth and development of the Peninsula area," Peterson told the examiner.

"We have followed a low fare policy with regard to commutation fares and other fares for many years. Even with the proposed increases in the present instance, they will still be lower, in most cases, than the commutation fares charged elsewhere."

Peterson mentioned spiraling costs of taxes, wages, fuel and other items.

Many Taxpayers Must File on Declarations Next Week

One out of five taxpayers will be required to fulfill some Federal Income Tax obligation by Jan. 15, Collector of Internal Revenue James G. Smyth of the First California Dist., said today.

The majority of taxpayers who filed estimated declarations by Mar. 15, 1947, are required to make a quarterly payment.

In analyzing the requirements for taxpayers to follow by the Jan. 15 deadline, the collector divided them into three groups:

1. Business and professional men and women, and all others who filed an estimated declaration by Mar. 15, 1947, are required to make a fourth quarterly installment payment. If the tax as declared on the original estimate is not within 80 per cent of the actual liability, an amended declaration must be filed, bringing the tax payment within the required amount. Persons who based their estimate on the 1946 income tax are not required to file an amended estimate, even though their estimate is not 80 per cent accurate.

2. Wage earners are not usually affected by the Jan. 15 deadline; however, three categories of wage earners are affected by this deadline and should file estimated declarations:

(a) Wage earners, who if single, receive more than $100 of income not subject to withholding tax, and have a total earning for the year of more than $500.

(b) Married couples who receive from community property sources $200 or more not subject to withholding tax, and have a total annual income of $1000 or more.

(c) Wage earners whose salary is not subject to withholding tax, such as domestic servants and farm laborers.

(d) Single persons whose wages subject to withholding tax exceed $5000 annually plus $500 for each exemption except their own. For example, a single person who supported his mother in 1947, would be required to receive from salary subject to withholding tax $5500 before being required to file a declaration.

(e) Married couples whose wages exceed $10,000 annually plus $500 for each exemption except their own. For example, a married couple with two dependent children would be required to receive from salary subject to withholding tax $11,000 or more before being required to file a declaration.

3. Farmers, those who derive two-thirds or more of their income from the operation of a farm or ranch, either as owners or tenants, are required to estimate their 1947 tax within two-thirds of their actual liability, or file a final return. All tax due on either the estimate or the final return must be paid on filing. Farmers electing to file a declaration must file a final return by Mar. 15.

Bayshore Freeway Segment Opened

A preview of things to come was given Bay Area motorists yesterday when the new 5.1 mile stretch of the six-lane divided Bayshore Freeway between Broadway, Burlingame, and Colma Creek, South San Francisco, was opened to the public at 10 o'clock.

The opening of the new stretch of superhighway, which some day will extend from San Francisco to San Jose, was made without fanfare or ceremony.

Capt. E. F. Cassell, in charge of the San Mateo County division of the state highway patrol, appointed three men to divert traffic from the old Bayshore Hwy. to the new freeway.

Total cost of the newly opened stretch was $2,993,000. Signal lights at Broadway, Millbrae, San Bruno, the airport turnoff and South San Francisco have been installed and were in operation this morning.
